

## **Amendment to the 2025 Junior Euros and Worlds selection policies**

### Changes

- 8.1 add to the last sentence .....and their selection helps fulfil the aims of the *Selection Process*.

Delete existing 8.2 and replace with

- 8.2 The ISC's intention is to select the highest eligible pairs based upon the *Ranking* outlined in Section 7 whilst taking into account the performance standard in 8.1. When considering the selection of pairs that finish outside of the top 50% of the entries on the *Ranking*, the *ISC* may take into account the age / gender make-up of the team and selection may not therefore directly match the overall *Ranking* results.
